Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Korean Patent Abstract (No. 2003-0005593) in combination with Seo et al (International Journal of Cosmetic Science, Vol. 24, pages 195-206 (2002) and Byon et al (U.S. Patent No. 6,747,015).

The Korean Patent discloses the claimed water-soluble chitosan useful for removing cholesterol but does not disclose said chitosan in combination with seaweed or Inula helenium L. However, since the combination of chitosan and Inula helenium L. was well known in the art at the time the instant invention was made as disclosed by Seo et al and the use of seaweed for lowering cholesterol was also well known in the art at the time the instant invention was made as disclosed by Byon et al (column 1, lines 46-

Art Unit: 1623

53) a person having ordinary skill in the art at the time the instant invention was made would have been motivated to combine chitosan disclosed by the Korean Patent with seaweed and Inula helenium L. because such a person would have expected the resulting composition to be useful for lowering cholesterol.
